FRESNO, CALIFORNIA, FRIDAY, AUGUST 19, 1910.

PRICE FIVE CENTS

WALLACE WINS OVER FRANCIS KEESLING

Spalding Has Plurality of Votes For United States Senator on Latest Returns—Several Places on Ticket Are Still Doubtful.

SAN FRANCISCO, Aug. 18.—A. G. Spalding has defeated John D. Works in the advisory vote on United States Senator to succeed Senator Flint, according to the Call. With only a few districts missing, the Spalding count stood 41,142 at midnight, with Works at 38,900. It is not thought that Works can overcome this lead.

The fight for the nomination for Secretary of State is still in doubt, with Frank Jordan claiming that he has won by a small margin.

The same tabulation that decides the senatorial fight gives Friend W. Richardson the nomination over W. W. Shannon for state printer. Richardson is leading William H. Bamias, the Regular, by a vote of 41,875 to 36,493.

Edward Hyatt's vote reached 59,378, while Allison Ware fell nearly 10,000, with 49,780.

SAN FRANCISCO, Aug. 18.—With but a few outlying districts to be accounted, hope flickered and went out in the camp of Francis V. Keesling at 9 o'clock tonight and it was generally conceded that A. J. Wallace, insurgent candidate, had been successful in his fight for the Republican nomination for lieutenant governor. As nearly as the figures can be computed, they justify the estimate that Wallace has a lead of about 1,300 over the San Franciscans.

This ends a contest that has been in dispute ever since the results closed on Tuesday and it gives to Hilary Johnson, Jr., for governor, a running total of 51,142, is the choice of the grand faction of the party—the Lincoln-Roosevelt wing. Keesling's majority, 1,300, while Wallace in San Francisco was larger, the heavy vote from the northern part of the state outweighed this in favor of the Los Angeles man.

Returns from some minor San Joaquin Valley points still to be counted failed to indicate that Friend W. Richardson of Berkeley, insurgent, is leading W. W. Shannon, incumbent, for state printer. Shannon's strength in the party has been undisputed.

Friends of Liberal, Insurgent, Frank Jordan, free labor, and Walter Wagner, Regulator, all claim the nomination for Secretary of State. During the day O'Brien showed a small lead, later figures bring Wagner and Jordan to the front with the distinction between them varying as the figures are tabulated.

The nomination for the office of Clerk of the Supreme Court will be either William H. Pendleton, Regulator, or Frank Taylor of the Lincoln-Roosevelt forces. The tabulation tonight favored Taylor.

Perhaps the most interesting battle of all the politicians who are eagerly watching the turn of affairs is the one between John D. Works and A. G. Spalding for Republican endorsement for the United States Senate. Works appears to have little the best of it. Spalding is being credited with a good number of Assembly and Senate fat districts won and it is thought here in all quarters that he may be able to dominate the Republican caucus. In San Francisco alone he will carry ten of the twenty-seven legislative districts in the county he will have three in Mendocino one in Santa Clara one, and his supporters expect that this proportion will be continued throughout the northern end of the state and well into the "Progressives" stronghold in the South.

CANVASS OF VOTES.

The supercisor assembled yesterday afternoon to commence the canvass of the vote cast last Tuesday. All precinct returns save those of

places having been received. The canvass yesterday afternoon did not make much progress because of the time consumed in preliminaries and in point of fact only one precinct—Arizona Colony—was canvassed. It took twenty minutes to verify the votes on the Republican and Democratic tickets, and one hour and forty minutes for the Socialist votes, as so many unprinted names of candidates had to be written in on the tally sheets. The large number of written-in names on the ballots will protract the canvass much longer than had been bargained for.

IT COST HIM \$66.—Willard G. Crant makes affidavit of having expended \$66 in securing the nomination affidavits and for printing and announcements in his candidacy for city justice of the peace. Crant is the first man to make compliance with the law in this request, type-writing himself his statement and the accompanying affidavit. Inquiries on this score have been made at the county clerk's office and the answer is that the blanks for the statements have not yet been received from the printer. This verified statement of expenditures must be filed in duplicate within twenty-eight days after the primary, one with the county clerk and the other with the recorder. The county clerk or other officer issuing a certificate of nomination is authorized to withhold it until the expenditure statement is filed.

ON FOUR TICKETS.—Surveyor McKay will hold a unique position as a county candidate on the ticket at the November general election. He is the only candidate who will appear as the nominee of the four parties that participated at the primary election. His name, McKay for the Republican nomination, was written in liberally to become the Democratic nominee for county surveyor, a dozen or more cities gave him the Socialist nomination and six or more gave him the endorsement of the Progressives. McKay had at the start in the primary a clear field save in his own party.

SAN DIEGO.—SAN DIEGO, Cal., Aug. 18.—Complete returns of 12 precincts out of 90 give:

Governor—Anderson, 871; Curry, 1,606; Johnson, 1,608; Stanton, 1,532; Lieutenant Governor—Farmer, 1,608; Ferris, 1,627; Keesling, 572; Wallace, 1,300;

Associate Justice—McLain, 2,613; Shedd, 2,176; Wilson, 1,938;

Secretary of State—Jordan, 728; Sherman, Sibley, Munger, 831; O'Brien, 1,421;

Controller—Mattison, 2,145; McCay,

United States Senator—Mervier, 141; Spalding, 4,106; Works, 727;

Associate Justice—Oster, 936; Shaw, 535;

Tax Collector—Estelman, 2,033;

Congressman—Kirby, 2,159; Smith, 1,922;

State Senator—Simo, 2,232; Wright, 2,666;

Assemblyman—78th district—Hinckley no opposition;

Assemblyman, 50th district—Johnson, 562; Stanfield, 259;

ACTING LINCOLN, Aug. 18.—Complete return of 1,000 precincts gives: Keesling, 4,552; Wallace, 2,873; Jordan, 372; O'Brien, 2,006; Wagner, 2,22; Shannon, 2,575; Richardson, 2,541; Works, 409; Spalding, 352.

Piney county: Keesling, 461; Wagner, 511; Jordan, 525; O'Brien, 259; Wagner, 486.

PROGRESSIVES CONTROL LEGISLATURE

DECLARER SECRETARY OF THE LEAGUE

SAN FRANCISCO, Aug. 18.—Charles R. Detrick, secretary of the Lincoln-Roosevelt League, stated tonight that the Progressive element in the state will dominate every county convention in the state and the state convention.

"With practically every fight for the separate offices won to our side," he said tonight, "we are now in control and I think I can say that harmony reigns throughout. That seems to be the spirit. We will have a working majority in both houses of the legislature and therefore this body and the office of the Governor can work in accord."

**BABY HARRY WEIGHS
ONLY 450 POUNDS**

But He Is Arrested for Appearances as Freak in Amusement Park.

CHICAGO, Aug. 18.—"Baby Harry," 12 years old, who weighs some 450 pounds and is a star attraction at an amusement park, yesterday told Factory Inspector Davies a story of the troubles that obesity has thrust upon him. Harry had been taken into custody on the ground that he was violating the child labor laws by appearing as a "freak."

"I'm only 12," said he, "but I have troubles enough for an old man. When I was a baby I could not get enough to eat. When I was old enough to go to school the other people laughed at me. The teacher could not find a seat for me, for at 9 I weighed 550 pounds. They took me out of school at last and I got my job in the park. I thought then that my fat was going to do me some good at last, but it was wrong. Here I am, just as the season is going

TERRIBLE OUTBREAK OF CHOLERA ALARMS ITALY

Death Rate Is High, Those Attacked Dying in a Few Hours.

THE PEST IS VIRULENT

King and Queen Prepare to Go to the Infected District.

BARI, Italy, Aug. 18.—The grav-

ity of the situation in the incor-

poration of Mori Delta Puglie, where

Asian cholera has broken out, is

thoroughly appreciated by the

Italian government. The town of

Trani is seriously infected and in

the forty-four deaths reported in

the latest advices, twenty have

occurred in that place. There

have been ten deaths at Bartolla,

one at Corigliano, two at San Fer-

mando, one at Biscoglio, four at

Margherita di Savoia, two at

Andria and three at Trinitapoli.

Decrees have been issued for

blinding fairs, processions, feasts

and public meetings.

So far the death rate has been

high, those attacked in many

cases dying within a few hours.

The present epidemic is of a vir-

ulent type and the fear is gen-

eral that it will be difficult to

check.

KING WILL GO.—TURIN, Aug. 18.—King Victor Emmanuel and Queen Elena are displaying great anxiety over the outbreak of cholera in the south and the king has given orders that he be kept constantly informed of conditions in the infected regions.

The queen is especially touched by

the stories of distress among the people of the province of Mori Delta Puglie and has ordered that assistance be rendered them for which she will pay from her private purse.

King Victor Emmanuel is reported to have said:

If the scourge increases, instead of

going to Montenegro to take part in the festivities, I shall go where my people are dying."

It would be a serious thing if the king determined to proceed to the cholera district, for the queen has said that she would share the risk of the king. Her Majesty accompanied the king to Messina and to Avellino when they were overthrown by earthquakes and on those occasions she insisted upon being at the front, not sparing herself from hardships.

The Pope has sent instructions to all the bishops in the infected territory to employ every means in their power to aid in combating the scourge. They are especially instructed to enforce stringent measures and use their influence in the isolation of sus-

picious persons.

The Pope has sent instructions to

all the bishops in the infected terri-

tory to employ every means in their

power to aid in combating the

scourge. They are especially instructed to enforce stringent measures and use their influence in the isolation of sus-

picious persons.

In such case, the colonel feels that

he may be compelled at some juncture

to exert his influence against the ad-

ministration. Those who are closest

to the colonel believe he will do every-

thing in his power to avert such a

crisis during the fall campaign. It is

their opinion that he will decide to

fight, he refers to postpone the

struggle until the 1912 campaign, when

the next four years he is to be brought

before the country and when a suc-

cessor to W. H. Taft is to be selected.

Should such an issue between Colonel

Roosevelt and the administration pre-

sent itself at that time, it is the belief

of the colonel's intimate associates

that he will be in the fight to the end

—that he will stake his future on

the outcome and again become a can-

didate for the Presidency.

REMOVING CONTINGENCY.—It is believed, however, that Colonel

Roosevelt regards such a decision as a

remote contingency which is not to

receive serious attention at the present

time.

He has said repeatedly that he can

form no plan for the future, for the

statements never would have been

made. Representative Longworth of

Ohio, a son-in-law of Colonel Rose-

velt, has been present at nearly all of

the recent conferences which Presi-

dent Taft has held at Beverly.

One in Mexico, he says, the men will

be tried for insulting President Diaz.

Cutierrez de Lara, one of the Liber-

arians, is apparently untroubled in the

matter. When informed of the action

outlined, he said:

"The first copy of 'Regeneration' will

appear September 3rd. Every issue

will contain articles against the Diaz

government, and we expect that copies

will go into Mexico. I know that

Diaz has the publication of this paper

more than Ricardo's armed revolu-

tion. From the time the paper starts going across the border, Diaz will commence to come down from his high horse."

The Mexican consul in Los Angeles

will attempt to hinder the issuing of

"Regeneration" by requesting the pos-

terior authorities

ALEX. GORDON ELECTED ONE OF THE RAILROAD COMMISSION

He Returns Thanks for the
Magnificent Vote That
Was Given Him.

Former Fresno Will De-
vote His Entire Time to
the Public Office.

Alexander Gordon, formerly of this city, now a resident of Sacramento, received the nomination as railroad commissioner for the northern district at the primaries held on Tuesday.

In an open letter published last evening in the Sacramento Bee he returned public thanks for the support given him by the people and expressed himself in these words:

"I desire most heartily and sincerely to thank the good people of this railroad commission district—and particularly my neighbors of Sacramento county who showed their confidence in me by their magnificent vote—for the trust they have reposed in me."

"And I wish also to thank the Sacramento Bee and all the progressive newspapers of this district for the splendid work they did in the campaign."

"And to all the citizens of the district, I desire to say I do not consider the victory one so much for my own personality as the triumph for the great principle at stake, which is far and away above the ambition of any man."

"I hope so to work as a railroad commissioner for the best interests of the people of this district that every man who voted for me will be proud

PORTERVILLE INCREASING CITY ASSESSMENT VALUATIONS

Ranch Supt. Munger Escapes Death But With Loss of Foot.

Construction of P. N. E. Railroad Will Entail About \$500,000.

PORTERVILLE, Aug. 18.—Leading business men of this city were cited to appear before the city council sitting as a board of equalization this morning and show cause why their assessments should not be raised. The total of the proposed increases to be considered is a little in excess of \$72,000, divided as follows: First National Bank, \$35,000; T. L. Price, \$10,000; Citrus City Lumber Company, \$15,000; G. L. Robbins, \$2,500; First Congregational Church, \$15,000; Olds & White, \$2,375; Pioneer Bank, \$2,000; M. C. Boutman & Son, \$2,000. It is stated that the house plan has other clauses which will be issued when these mentioned have been definitely decided upon. It is also stated that when the work has been completed, the total roll of the city will be in excess of \$2,000,000.

Caught in the flywheel of a thirty horse-power gasoline engine, Harvey Munger this morning escaped a horrible death at the Flinders orchard at the expense of a mangled foot. Munger had been on a vacation and returned yesterday morning to his work as superintendent of the ranch. In the morning when the irrigating plant was to be started, it was found that something had gone wrong with the engine and it was impossible to start it. Munger went in to assist the engineer at the pumping plant and gave the wheel a turn. As he did so the engine took the spark and he was drawn down under the fly wheel, his clothing catching on the protruberance on which the starting handle sits. It was impossible to start the engine in time to save Munger from injury, but with presence of mind and quickness he extricated himself so that only his foot was caught. This was crushed in between the fly wheel and the body of the engine and was horribly mashed. Munger was taken to a local hospital where the surgeon said that there is a possibility that the foot may be saved from amputation.

Due to the objections voiced by the board of managers of the Tulare County Citrus Fruit Exchange with the board of control of the parent organ-

PEROXIDE CREAM

For those particular people who desire a beautiful complexion and who want to keep the skin at its best all the time—keep it clear, flexible, smooth and give it the glow of health—there is nothing as good as A. D. S. Peroxide Cream, because it contains a small quantity of Hydrogen Peroxide, the great antiseptic healing and cleansing agent.

Its action upon a red, blanched, plump, scaly, unsightly skin is very pronounced.

When used in massage it has a tendency to eradicate wrinkles and to nourish the tissues. It is a mild bleach—perfectly harmless and will not grow hair.

This is one of the leading preparations made by the American Druggists Syndicate, which is composed of 12,000 responsible druggists, and it is but one of the famous A. D. S. Peroxide Family.

The others—equally as good, equally as beneficial and just as popular—are A. D. S. Peroxide Tooth Powder, which whitens, cleanses and preserves the teeth; A. D. S. Peroxide Tooth Paste for different forms; A. D. S. Peroxide Soap, a very superior soap because it heals as well as cleanses; A. D. S. Peroxide Foot Powder, for tired, aching, burning feet; and last, but by no means of least importance, is A. D. S. Peroxide of Hydrogen, the great disinfectant and germicide now being used in so many homes.

All of these A. D. S. preparations can be obtained at any A. D. S. drug store.

Job Printing Department, Main 200.
Press Room, Main 54.

WEATHER CONDITIONS

Highest temperature yesterday 101
Lowest temperature yesterday 55
Humidity, percentage of 44
Wind, S. E., miles per hour 3
Total rainfall Sept. 1st to date 10.75
Forecast: Fair weather Friday.

GENERAL CONDITIONS

High pressure weather continuing covers the whole of the country east of the Rocky Mountains. This area shows quite general cloudy and unsettled conditions with scattered rainfall. Dodge City and Colorado whilst reporting in excess of an inch during the past twenty-four hours. An area of low pressure appears to be entering the northwest and the pressure over the southwest has risen somewhat since yesterday. The usual morning cloudiness prevails along the coast. Temperature conditions generally are unchanged. Yuma and Phoenix are the only stations in the United States reporting temperatures over 100 degrees during the last twenty-four hours.

Pressure conditions over the Pacific Coast give reason to expect a continuation of fair weather for Fresno and vicinity tonight and Friday.

The members of Golden Rule Circle of the First Christian church will meet with Mrs. J. T. Brooks, at 275 Valencia street, this afternoon at 7:30 o'clock.

Literature, etc., in regard to the summer resorts that are advertising in the Republican, can be had by calling at the Republican office. Most of the best California resorts are advertising in the Republican.

The fire department was called out yesterday afternoon shortly after 3 o'clock to extinguish a fire in a small pile of hay, near the corner of Bratt and Anna streets in Woodward's addition.

Mr. and Mrs. Ed Bloday returned yesterday from a vacation trip to Sulphur Springs in the Sierras. They report the weather in the mountains as the warmest in years. The nights were cool but the days were warmer than usual.

The supervisors issued an order on the auditor to allow a demand on the county treasury for \$1000, being the first payment to the city board of free library trustees under the contract of April 15th for the county library branches.

August Arnoux, a native of France, aged 95 years, died yesterday afternoon after a long illness. He was attended by Drs. P. Manson and J. L. Martin. He had been a resident of Fresno for nineteen years, and leaves two sons, Jules and Louis.

The inquest over the death of Fred Frazer, who was ground to pieces by the Owl Wednesday morning near Ojai, was held yesterday by Coroner Beau and a verdict brought in of accidental death. Thomas Polaron, who was with Frazer, was the only witness.

Through an error in yesterday morning's paper, it was stated that George E. Oldfield who is detained in jail on suspicion of having stolen quantity of cigars from Ellis Club room, the recent fire, was the engineer of Engine No. 1. Oldfield was merely a call man who was stationed at Engine house No. 1.

The funeral of the late Greta Atkins, who died at the home of her parents on Cedar avenue, last Wednesday, will take place today at 9:30 at the late home of the deceased and at 10:30 from the Danish Lutheran church, corner of Elm and Lincoln avenues. The Interment will be in the Washington Colony cemetery.

DIED.

HAWES—In Fresno, August 18, 1910, Mrs. Alice Emily Hawes, a native of Massachusetts, aged 57 years and 2 months. Funeral notice later.

ARNOUX—In Fresno, August 18, 1910, August Arnoux, a native of France, aged 95 years. Funeral notice later.

The marvelous growth of our men's business has caused us to add an exclusive men's department on J St.

SUMMER SEASON WORK IN STOCKING MOUNTAIN FISH STREAMS

Operations Prosecuted in Three of the Counties in the Valley.

Warden Ellis Accomplishes a Feat With Loss Only of Two Fishes.

Deputy State Game Warden Ferguson suspended operations in fish stocking streams on the high mountain range to the country seat to vote at the primaries, but hiked out again this morning to resume the work ordered by the state commission and upon which he has been actively engaged at periodical times for a month or more during the summer season.

A great deal of territory has been covered by him and his by Deputy Ellis, the latter in Kern and Tulare counties. The prediction is made that in another three years and when the transplanted fish shall have had the opportunity to develop and multiply the mountain streams and tributaries in the Sierras in this portion of the state will be one of the finest fields for the angler sportsman as the result of artificial work carried out by laborious means in mountain packing.

Speaking generally, Ferguson has stocked with native Rainbow from the headwaters of Crown Valley creek, a tributary of the middle fork of the Kings river, and all streams flowing to the middle fork from the south. The north fork of the Kings and its tributaries have likewise been stocked with Fingertlings, more especially Past Corral and Helia creeks.

The work that he is engaged on now is the stocking of the southern tributaries of the San Joaquin, Eastern branch trout have been planted in the lower streams of the Bishop creek and the Ridge creek, and as heretofore stated, Lahontan trout have been set free in eleven lakes in the Sierras, back of Shaver and Delcambre with the latter as the packing point. The character of the work may be appreciated from the fact that the small fish must be packed in cans on the backs of burros and conveyed into the mountains over the most inaccessible trails, while keeping ever a watchful eye that the temperature of the water in the cans shall not fall below a certain degree.

Deputy Ellis, working in Kern and Tulare is finishing up his work which will contribute to much stocking of the Kings river in this country and has overcome natural obstacles which have always stood out against the fish stocking work in the Sierras. He has stocked with golden trout taken from Whitney creek or Volcano creek in Kern county, as it is better known, all the streams flowing into the big Kern from the East.

The special piece of work for which

IN THE LODGE ROOM

L. O. F.

Independent Order of Odd Fellows, No. 342, of the

Independent Order of Odd Fellows held a pleasant meeting last night at Odd Fellows hall. Two applications were received for membership by initiation. Steps were taken to form a team to initiate these and other candidates in near future.

A good time at Kerman last Saturday was reported. Local Odd Fellows went there to confer degrees on several candidates.

An interesting report on San Francisco Odd Fellow work made by a visiting brother and local members gave interesting accounts of vacation experiences.

AMERICAN MECHANICS.

GENERAL GEORGE WASHINGTON COUNCIL, No. 49, Building Fund, United American Mechanics, received last evening application from State Senator Myron C. McClintock, empowering the local council to appropriate with the second and fourth Thursday meetings for ninety days from date. This was done to permit the ladies auxiliary, the Daughters of America, to meet in the hall until they are firmly organized and perfected in the work. They are permanently constituted, are progressing nicely and will meet in Odd Fellows hall next Thursday evening.

The officers of Washington Council are perfecting themselves in the work of the new three-degree ritual. Meetings will be held several times a week from now on and the council expects to have a degree team equal to any in the state.

The state officers will make an official visit to the state next future, and this council will be expected to examine the ritualistic work.

Thomas Haslett of Victor, Colorado, was a visiting member. He intends to transfer his membership to this council.

ROYAL NEIGHBORS.

Sunrise Camp 2309, Royal Neighbors of America, met in regular session on Wednesday afternoon. On August 31st, the camp will entertain friends. All members of Camp 2309 are invited to come and bring a cake and a friend. Visiting members are invited. Royal Neighbors meet in A. D. U. W. hall first and third Wednesdays of each month.

he has been complimented was his success in carrying a full pack of golden trout across the Kern-Kings divide to stock the headwaters of the middle fork of the Kaweah-Kings divide fish for stocking the headwaters of Cloudy river, and the west fork of the Roaring river, a tributary of the south fork of the Kings.

The last two mountaineering expeditions are considered remarkable in their way, because of the difficulties of thefeat, the rough and untraveled route, and the roundabout journey made to reach the objective point. The fish were on pack trains for six days, traveling only six to eight hours per day for the preservation of the fish. The success of this expedition may be further appreciated when it is considered that only two fish in the packs were found dead at the end of the journey.

Warden Ferguson is authority for the statement that in about three years golden trout will be plentiful in the Cloudy river and incidentally in the Kings to stock thereafter with fish taken by netting the waters in a territory for 100 miles around the stocked streams.

PURSE SNATCHER IN TOWN OF MODESTO

Stanislaus' Sheriff Secures Four Party Nominations at the Recent Primaries.

MODESTO, Aug. 18.—A bold attempt at purse snatching, on the streets of Modesto, last evening, was frustrated by the presence of mind of Mrs. Fred Garlock of this city. She and daughter were returning home, out H street about 9 o'clock, and were suddenly confronted by a stranger, in rough garb who sprang out of the alley between Thirteenth and Fourteenth streets. He snatched at the purse of Miss Garlock was carrying, but seeing a watch pinned on Mrs. Garlock's breast made a scramble for it. Mrs. Garlock seized the fellow and screamed for help and the thief becoming frightened broke her hold and ran up the alley again. An officer was summoned and a description given of the would-be thief.

Sheriff Dingley of Stanislaus county has the distinction of being one of the few, if not the only, candidate for nomination to receive the endorsement of the four parties at the primaries. He won the nomination on the Republican ticket, with a handsome majority from his only opponent.

There were no candidates on the three tickets and Mr. Dingley's name was written in extensively. He received the nomination on the Republican, Democratic, Prohibitionist and Socialist tickets, practically assuring his election.

The work that he is engaged on now is the stocking of the southern tributaries of the San Joaquin, Eastern branch trout have been planted in the lower streams of the Bishop creek and the Ridge creek, and as heretofore stated, Lahontan trout have been set free in eleven lakes in the Sierras, back of Shaver and Delcambre with the latter as the packing point.

The character of the work may be appreciated from the fact that the small fish must be packed in cans on the backs of burros and conveyed into the mountains over the most inaccessible trails, while keeping ever a watchful eye that the temperature of the water in the cans shall not fall below a certain degree.

Deputy Ellis, working in Kern and Tulare is finishing up his work which will contribute to much stocking of the Kings river in this country and has overcome natural obstacles which have always stood out against the fish stocking work in the Sierras. He has stocked with golden trout taken from Whitney creek or Volcano creek in Kern county, as it is better known, all the streams flowing into the big Kern from the East.

TRIPLE PLAY BEATS BEAVERS IN 9TH ROUND, 2-0

Cameron's Sensational Stop of Fisher's Liner Saves the Game.

PORLAND, Aug. 16.—Oakland plastered Portland with a second coat of whitewash today, putting it on a little thicker than yesterday. The score was 3 to 0. Oakland's victory was not so much due to some time hitting which gave them their two points, as it was to a beautiful triple play, in which Cameron stopped a liner, hit by Fisher in the ninth, and stopping it first caught naps off home shot the ball to second just in time to catch Olsen, who had taken too long a lead. The score:

The Primary Election Is Over

and I suppose everybody is glad of it that deserves to be so. The result is another case of too many iron in the fire and one got burned. The Boss always tells me to do one thing at a time, and do that well. I think that's what W. F. Herrin will do from now on. I guess he will devote all his time to the legal business of his road and the Southern Pacific will show the good people of California how well it can run a railroad without politics. There are no politics in our store. We devote all our time to one thing, and that one thing is the conducting of a first class clothing and gents' furnishing goods store, and to find out how well we succeed, come in when in need of a suit and we will prove to you that we can give the best for the least money. While, with

ROY KUHN SIGNS UP WITH SACRAMENTO "SENATORS"

TABLES AGAINST THE ANGELS

Spider Baum Wins Heaving Duel From "Wild Bill" Tozer.

Another peach from the Kuhn family tree at Clovis is destined to become famous in the baseball world and thus give the home town a more prominent position on the map.

Walter Kuhn, formerly of the Fresno State League, has made of big stuff, and he would now be春风化雨 in the East if a two year's

companion were not hanging over his head. As it is, Walt is buckstopping for the Tulare Merchants in the San Joaquin Valley organization. He is making good money but little is heard of his brilliant touring.

Now comes Roy Kuhn, a younger brother of Walter. Like his older brother, Roy is a sorrel top. Morever, he is some class as a buckstopper. Although not the finished article, he can receive rings around him, and every Fresno fan knows that the ex-Tiger is hard to beat in his bat. Roy looks like his big brother in every respect. He receives the ball like him, plays to bases with an arm of iron and has a variable demon on foul balls. That is Walt's long suit, but his kid brother is just as good any way you look at it.

Yesterday news was received here that Roy Kuhn had signed contract to catch for Charley Graham's Senators in the Coast League. Kuhn will report at once. The Coasters are dishing out big league ball this season, the best, for the pennant being the greatest in the history of baseball west of the Rockies. All members are on their mettle and with the exception of Sacramento, five teams have a good chance to cap the bunching. Notwithstanding that the Senators are wired in the basement, the club is fighting hard every minute and bids fair to make trouble for some of the leaders.

Through a deal made by Charley Graham, Southpaw Ben Hunt, who has been one of the sensations of the league, is leaving for St. Louis to join the Boston Americans. In exchange Graham gets back Arrelane, the former San Joaquin flinger, who has not been going very strong of late in the show. John L. Taylor, owner of the Red Sox, asked for waivers on Arrelane. The clever right-hander is en route to Sacramento.

The acquisition of Arrelane will strengthen the Senatorial crew beyond the slightest doubt. In fact, he should win more games than Hunt. Hunt is a twirler of the few wipers, when he fact that he fell down in the East should not make very much difference. Frisch, out off, had this season. To begin with he was confined to his bed with a severe illness for six weeks. He never fully recovered from this until recently. However, the Red Sox manager sent him into the game before he was fit, with the result that his arm gave out.

Roy Kuhn is only a youngster, but he is a willing worker, one who is always anxious to learn. He does not think he knows it all and is eager to listen to anything his more experienced teammates will teach him. If Graham does not work him too much at the gateway and allows the sorrel top to sit on the bench and study the game as it is played in fast company, Kuhn will make a great backstop. By next season he will be ready to take his regular turn behind the plate.

Kuhn's career began at Clovis, where his big brother sat his start. While catching for the home town boys, Roy won under eight of. However, when he joined the Fresno Republicans, amateur champions of the valley, he gained instant recognition. His work was watched with interest. When the San Joaquin Valley League was formed, Roy joined the Coalings Savages, where he made a reputation for himself. Now he is to receive a whirl in Class A society. Here's hoping he makes good. A few years more and he will meet his brother in the East, for Walt is en route there as soon as the blacklist is lifted by the National Commission. While he made the mistake of playing in the outlaw California League after signing a contract to report to Minneapolis in the American Association, Roy has no strings on him, and if he continues to improve, his path from the Pacific coast to the major leagues will be covered with roses.

COMPLETE RETURNS OF COUNTY VOTE COMPILED

Cumbersome Count Involves
Handling of About
27,000 Figures.

PREDICTIONS RIGHT

Smith Beats Van Meter by
Close Margin; McNeil
Is Nominee.

The Republican publishes this morning complete totals for all candidates in the Republican and Democratic parties at Tuesday's primaries, excepting the vote from two small mountain precincts, and one Reedley precinct in a few lesser offices. In sputtering vote due to mistakes, the village joker, and switching of party candidates, where totals were very small, are ignored.

The predictions made in the Republican immediately following the coming in of first returns are all vindicated by this exhaustive count, which has taken two days. In no case of a close contest for any office has a prediction of the result of the county vote gone wrong.

The amount of labor involved in getting returns from this primary election, so as to put them out to people in concentrated and orderly form, has been fully twice the labor involved in doing the same work with two general elections. In fact there were no elections Democratic and the other Republican to keep track of. And length of tickets and the confusion caused by "writing in" vastly increased the labor.

Same 27,000 figures had to be entered on specially prepared blanks and then totalled up. This labor was increased by the taking of a large number of partial returns, most of which were outside the taking of the 27,000 figures above.

YEARS OF FIGURES.

To do this work, four to five clerks were employed for two and a half days, working with two adding machines. Scores of yards of paper tape were run out of these machines in footling up totals.

Report was given publicly yesterday to the effect that Chris Jorgensen beat out McNeil for the Republican nomination for supervisor in the first district. This proved to be entirely without foundation. The vote on the Republican ballot stood 203 to 57, with McNeil on the safe end. Jorgensen had things his own way for the Democratic nomination.

One of the most spectacular runs of the election was made by Scott Spelley for county surveyor. He literally received the nomination on all four tickets in the Republican, Democratic, and Prohibition.

SMITH CHOSEN.

An exceedingly close race, but the result of which had become patent yesterday, was that of George W. Smith and E. S. Van Meter for the Democratic nomination for justice of the peace of the Third judicial township. Smith, as shown by final results, won out by a margin of ten votes, each candidate polling over 500.

A complete canvass shows that Anderson carried two precincts and Ellery, the tinsel in the governor's race, one. In each case it was a small precinct, with but one Republican voter to each. Johnson carried the voters to each.

The village jester proved the pest of the election. He took his privilege of listing in names of nominees as a fine chance to display his wit, and every time from serious folks to local people to the insertion of "yellow dog" was encountered.

COUNT RETARDED.

Just how much this means in retarding the work of a count may be illustrated by an incident of the canvassing at the courthouse yesterday. There was one Socialist voter in a certain precinct. He had written in every name but that for governor. The canvassing of the precinct returns took one hour and forty minutes, two-thirds of which time was consumed with the one Socialist ballot.

Practically every name written in caused a delay of several minutes to election officials, and while this was not resented where the intention of the voter was serious, it caused some teasing when it was all seen to be a joke.

Surviving her are a widower and two children, Elizabeth, and young son.

No arrangements have been made as yet for the holding of the funeral.

VEIN OF GRANITE DELAYS WORK ON WAHOO BRANCH

Black Powder of No Avail
on Rock Found in Soft
Stone Country.

Through the unexpected discovery of ten feet of the hardest granite above the Minuteman house, on the route of the new Wahoo branch of the Santa Fe, work on that extension has been delayed a week. The presence of the stone was wholly unexpected, particularly as all other rock there is of the disintegrated type.

To cope with the unexpected vein the regular drilling tools were resorted to, only to find that they soon dulled themselves in boring into the hard rock. Local blacksmiths were unable to restore the temper, as the drills must be retipped after such work. Half a dozen blacksmiths were tried out before one with sufficient skill to assist the railroad builders could be discovered...

Black powder has no effect on the granite. Slow headway is being made with dynamite, the gang blasting a way little by little. In all the work is being delayed about a week. The three mile stretch on which the men are working, and which, excepting for the discovery of the ten foot vein of granite, would have been completed, will bring the road within a couple of miles or so of its full length of eighteen miles. The road will tap a promising territory.

DEATH TAKES AWAY MRS. HORACE HAWES

Dies After Long Illness, the Result of
Nervous Prostration; Funeral
Announced Later.

Alice Emily Hawes, the wife of Horace Hawes, the attorney, died last night after a long illness, the family home, No. 104 S Street, after an illness extending over a period of several weeks. Nervous prostration was the cause of death.

Mrs. Hawes was 57 years of age at the time of death. She was born in Massachusetts in 1855, coming from that state to Fresno in 1882, where she has lived since.

It has been known for some time that Mrs. Hawes was in a serious condition, and it was feared that she might never recover. Early last evening the sick woman began to sink, and about 8 o'clock life was pronounced extinct.

Surviving her are a widower and two children, Elizabeth, and young son.

No arrangements have been made as yet for the holding of the funeral.
